NEBUTRA

Brand Visual Identity Manual

v2.0 March 2026 Confidential

01 — LOGO SYSTEM

Logo

The Nebutra logomark derives from the letter N, constructed through positive and negative geometric space to form an implied hexagonal structure.

DARK

LIGHT

BRAND

Clearance: all sides ≥ ¼ logo height · **Minimum:** 35px digital height

BRAND ETYMOLOGY

Nebula **Nurture**
Ultra **Future**

云端聚合 · 引领未来

Cloud Aggregation · Leads the Future

LOGOMARK GRID

Hexagonal N-form constructed on `6.5a × 2.5a` module grid.

Total width: `21a`

CLEARANCE ZONE

Minimum clearance on all sides ≥ ¼ of the logo height.

Digital minimum: `≥ 35px`

Print minimum: `≥ 6mm`

ASSET INVENTORY

- `logo-color.svg`
- `logo-inverse.svg`
- `logo-mono.svg`
- `logo-horizontal-en.svg`

SEMANTIC COLORS

Success	Warning	Info	Error
#22c55e	#f59e0b	#0033FE	#ef4444

03 — GRADIENTS

Gradients

The Blue → Cyan gradient is Nebutra's most distinctive visual signature.

Primary — 135°

Reverse — 135°

Horizontal — 90°

Glow — Radial

Type System

Infrastructure

Geist Sans Variable

Display & Headlines — Weight 100–900

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 &@#%!?

Cloud Intelligence

Poppins

English Body & UI — Weight 400, 500, 600, 700

云端聚合 · 引领未来

vivo Sans

Chinese Body (CJK) — Weight 300, 400, 500, 600, 700

Fallback: PingFang SC → Microsoft YaHei → Noto Sans SC
CJK line-height: 1.75 · font-size-adjust: 0.52

JetBrains Mono

Code & Data — Weight 400, 500

```
const nebutra = { cloud: "intelligence", version: "2.0" };
```

HEADING SCALE

72px	**Hero Display**
60px	**Large Display**
48px	**H1**
36px	**H2**
30px	**H3**
24px	**H4**
20px	**H5**
16px	**Subheading**

COPY SCALE

24px	Lead paragraph text
16px	Default body copy for descriptions
14px	Small body, UI labels
13px	Captions, metadata, timestamps

UI SCALE

14px/500	**Button label**
13px/500	**Form label**
12px/400	Caption, timestamp
11px/600	OVERLINE

05 — MOTION LANGUAGE

Motion

Three core motions derived from the “云端聚合” (Cloud Aggregation) concept.

Emerge

涌现

y: 16 → 0
blur: 6px → 0
duration: 0.6s

Flow

流动

x: -20 → 0
duration: 0.4s

Pulse

脉动

scale: 1 → 1.015
infinite, 3s

Brand Easing

cubic-bezier(0.16, 1, 0.3, 1)

Enter Easing

cubic-bezier(0, 0, 0.2, 1)

Patterns

Hexagonal Grid

Core structural pattern — derived from logomark geometry

TEXTURES & SHADERS

CSS	**Grain Texture** — SVG feTurbulence noise at 8–15% opacity for analog warmth
CSS	**Dot Pattern** — Radial gradient grid at 24px spacing for subtle backgrounds
CSS	**Dithering** — CSS-only retro texture for heritage sections
WebGL	**MeshGradientBg** — Multi-point flowing gradient (max 1 per page)
WebGL	**NeuroNoiseBg** — Organic brain-like noise for AI/ML sections
WebGL	**WavesBg** — Animated wave patterns for data-flow metaphors
WebGL	**WarpBackground** — Space-warp distortion for immersive hero sections
Canvas	**FlickeringGrid** — Dynamic grid with random cell visibility
Canvas	**StarsCanvas** — Starfield for cloud/space themed sections

Do's & Don'ts

DO

- Use brand gradient (135deg) on hero sections and primary CTAs
- Use Geist Sans for headlines, Poppins for English body, vivo Sans for Chinese
- Use #0033FE for info semantic states (not sky/teal)
- Use neutral-950 (#020617) as dark mode background
- Use emerge motion for content reveals, flow for horizontals
- Use brand easing cubic-bezier(0.16, 1, 0.3, 1) for all transitions
- Maintain WCAG 2.1 AA: 4.5:1 normal text, 3:1 large text
- Use hex grid as primary decorative background pattern
- Design dark-first, then adapt to light mode
- Respect prefers-reduced-motion for all animations

DON'T

- Distort, rotate, recolor, or add shadows to the logo
- Use #000000 as background — use neutral-950 (#020617)
- Substitute brand blue with sky-500, teal, or generic blue-600
- Use cyan (#0BF1C3) as text on light backgrounds (fails WCAG)
- Use Inter, Roboto, Arial, SF Pro, or other non-brand fonts
- Use Poppins for hero headlines (use Geist) or Poppins weights outside 400-700
- Use generic ease-in-out or linear easing
- Animate transitions longer than 0.8s
- Use solid blue where brand gradient is expected
- Use more than 1 WebGL shader per page
- Add theme toggle to the landing page (forced dark)
- Place glassmorphism on light backgrounds

LOGO RULES

RULE	SPECIFICATION
Minimum clearance	All sides ≥ ¼ of logo height

Digital minimum height	≥ 35px
Print minimum height	≥ 6mm
Landing page logo	Always white — never conditionally swap
Prohibited	Stretch, skew, rotate, outline, animate shape, add drop shadow, place on busy backgrounds

COLOR RULES

PROHIBITED SUBSTITUTION	CORRECT ALTERNATIVE
Tailwind sky-500 (#0ea5e9) for info	Brand blue #0033FE
Tailwind teal-500 (#14b8a6) for accent	Brand cyan #0BF1C3
Tailwind gray-* for neutrals	Blue-undertone neutrals (#f8fafc – #020617)
Pure white (#fff) text on dark	neutral-100 (#f1f5f9) for softer contrast
Pure black (#000) as background	neutral-950 (#020617) for blue undertone

MOTION RULES

CONTEXT	SPECIFICATION
Max UI transition duration	0.8s (reveal)
Hover/active feedback	0.1s – 0.2s
Content entrance	0.4s – 0.6s
Infinite animations	Only Pulse is allowed to loop
Bouncy spring	Button feedback only — not for everything
Prohibited	linear easing, generic ease-in-out, >3 animated properties simultaneously

ACCESSIBILITY

STANDARD	REQUIREMENT
WCAG version	2.1 AA minimum
Normal text contrast	≥ 4.5:1
Large text contrast	≥ 3:1 (≥ 18px bold or ≥ 24px regular)
Focus indicators	2px solid #0033FE, offset 2px on all interactive elements
Reduced motion	Disable entrance animations, pulse, WebGL shaders
Color independence	Information never conveyed by color alone

DIGITAL TOUCHPOINTS

FAVICON

Mono logomark on transparent background.
Sizes: 16, 32, 180, 512px
Use `logo-inverse.svg`

SOCIAL / OG

Horizontal lockup on dark background.
OG image: 1200 × 630px
Use `logo-horizontal-en`

EMAIL SIGNATURE

Horizontal lockup, left-aligned.
Max width: 200px
Light BG: mono · Dark BG: inverse

PRINT TOUCHPOINTS

BUSINESS CARD

Front: Vertical lockup, centered.
Back: Horizontal lockup + contact.
Size: 90 × 54mm

PRESENTATION

Title slide: Horizontal lockup, centered.
Footer: mono logomark 24px height.
Aspect: 16:9

DOCUMENT / LETTER

Header: Horizontal lockup, top-left.
Max height: 28px
Always mono variant on white paper.
